Link to SEN Matrix:

Service aims:	CDT aim to provide a comprehensive service to meet the needs of severely disabled children and their families on the Isle of Wight as part of a multi-agency team. In addition the team can provide information and advice about the choices available to the parents and child/young person.
----------------------	---

To access the support:	All requests for support must go through the Referral & Assessment Team Duty Officer on 525790 who will pass on your referral if considered appropriate for the team. Informal advice can be provided through contacting the team at Oak House on 535370.
-------------------------------	--

Method of support:	Once the referral is received an Initial Assessment will be carried out to help identify the child and family's needs. The support will be offered as appropriate and may be in the form of: <ul style="list-style-type: none">• Advise about choices available;• Support with other family problems such as housing, education, benefits and accessing support groups;• Allocation of a social worker/assistant to help you look at the choices, resources and services available.• Referral onto another appropriate service.
---------------------------	---
